

I am an avid listener of K-Love radio. It concerns me that I may no longer be able to listen to its powerful message if it were displaced by an LPFM broadcaster. K-Love is essential to the listeners that want to have family friendly radio. I am ashamed to listen to "regular" programming now-a-days. K-Love is one of the few stations that can be listened to by all and is uplifting - it doesn't tear down anyone or anything. This country was based on this philosophy! Please do not displace it!
